## Message from ISM President

We, the Organizing Committee for the XVIII International Congress for Mine Surveying, warmly welcome colleagues to attend the conference scheduled to take place in China from 26 to 29 October 2023.

Established in 1969, the International Society for Mine Surveying (ISM) is a non-profit academic organization associated with the United Nations Educational, Scientific and Cultural Organization (UNESCO). It currently has 43 membership countries and has held 17 global assemblies, once every three years. The Congress is the largest and the most prominent assembly of world leading professionals of mine surveying. The main purpose of the congress is to bring together world leading scientists, academics, professionals, manufactures and entrepreneurs to share and showcase their latest achievements in the broad area of surveying, mining and geospatial. It is hoped that, the congress could act as a catalyst in advancing mine surveying and the geospatial industry in general and be a great opportunity to meet colleagues to foster collaboration, knowledge exchange and discussion of hotspots and future trends etc.

The congress will be featured with presidium meetings, plenary/keynote sessions, panel discussions, oral presentations, poster presentations and technical exhibitions as well as sessions dedicated to young professionals and postgraduate students. In addition, there are also a number of social and cultural tour programs organized by the congress. Moreover, the Congress is coincident with the celebration of the 70th Anniversary of Chinese Mine Surveying. An award ceremony will be held for outstanding papers and presentations at the closing ceremony of the conference.

The main venue for the congress will be in Xuzhou, a key transport hub in China. Xuzhou has a long legendary history of more than 6,000 years. Approximately 2,000 years ago, Xuzhou was China's political center in the Han Dynasty. Xuzhou is proud to be ranked as one of the most livable cities in China. The congress presidium meeting and technical tour sessions will be held in Beijing and Shanghai, respectively.

Rest assured, the ISM 2023 Committee team will make every effort in making the congress to be a “most” pleasant and enjoyable event for all participants and their accompanists.

The congress will cover a wide range of topics related to mine surveying, mining and geospatial spanning from education and knowledge transfer, intelligent surveying and mapping, digital and smart mine, exploitation and utilization of underground space, 3S (remote sensing, GIS, GNSS) technologies, land reclamation and ecological restoration, environment monitoring and green mine, future mining, artificial intelligence (AI), big data and digital twin, disaster monitoring and emergency management etc.

## Conference Highlights:

- Keynote/plenary speeches by renowned experts in the broad area of mine surveying,
- Technical sessions featuring research paper presentations, showcasing the latest findings and innovations,
- Panel discussions on emerging trends, hotspot, challenges and opportunities etc.
- Networking and social events to appreciate the legendary ancient Chinese culture and to foster collaboration and connection among participants.

Please visit the Congress Website at <http://www.ism2023.org.cn/> for all necessary information. We encourage you to register your attendance as early as possible in the Congress Website and submit your abstract and full paper according to the congress timelines.

## Congress Organizations

### **Instructed by:**

International Society for Mine Surveying  
Chinese Society for Geodesy, Photogrammetry and Cartography  
China Coal Society

### **Organized by:**

China University of Mining and Technology  
China University of Mining and Technology (Beijing)  
Henan Polytechnic University  
Anhui University of Science and Technology

### **Co-organized by:**

Shanghai Huace Navigation Technology Co., Ltd.  
Guangzhou Southern Surveying and Mapping Technology Co., Ltd.  
Hexconn Surveying and Geographic Information System (Qingdao) Co., Ltd  
International Journal of Coal Science & Technology

### **Supported by:**

Aachen University of Technology, Germany  
Freiberg University of Technology, Germany  
University of New South Wales, Australia  
University of Johannesburg, South Africa  
AGH University of Technology, Poland  
The Construction Program of Space-Air-Ground-Well Cooperative Awareness Spatial Information Project  
Mine Surveying Professional Committee of Chinese Society for Geodesy, Photogrammetry and Cartography  
Mine Surveying Professional Committee of China Coal Society  
Technical Appraisal Committee for Coal Mining Damage of China Coal Society  
Coal Mine Land Reclamation and Ecological Restoration Committee of China Coal Society  
International Union of Higher Education in Mining, Energy and Environment  
Key Laboratory of Land Environment and Disaster Monitoring of the Ministry of Natural Resources  
Engineering Research Center of the Ministry of Education for Mine Ecological Restoration  
Collaborative Innovation Center for Resource Utilization and Ecological Restoration of the Old Industrial Base in Jiangsu Province

Key Laboratory of Information Engineering for Resources and Environment in Jiangsu Province  
Jiangsu Natural Resources Think Tank China University of Mining and Technology Research Base  
Ecological Restoration Network | Easy Restoration College

## Congress Committee

### Advisory Committee

#### **Chair:**

Deren Li                      Academician of the Chinese Academy of Sciences, Academician of the Chinese Academy of Engineering

#### **Co-Chairs:**

Feng Liu                      President of China Coal Society  
Chaozhi Song                President of Chinese Society for Geodesy, Photogrammetry and Cartography  
Heping Xie                    Professor of Shenzhen University, Academician of the Chinese Academy of Engineering  
Liang Yuan                    Professor and President of Anhui University of Science and Technology, Academician of the Chinese Academy of Engineering  
Shirong Ge                    Professor and President of China University of Mining and Technology (Beijing), Academician of the Chinese Academy of Engineering

#### **Advisory Board Members:**

Chris Rizos                    Professor of the University of New South Wales, President of the International Union of Geodesy and Geophysics (IUGG), former President of the International Association of Geodesy (IAG)  
Micheal Sideris              Professor of the University of Calgary, former President of the IUGG and IAG  
William Cartwright            Honorary Professor of the Royal Melbourne Institute of Technology, former President of the International Association of Cartography  
Serkan Saydam                Professor of University of New South Wales, President of The Society of Mining Professors  
Hua Guo                        Chairman of the 26th World Mining Congress and CSIRO Research Director for Mining  
Yuanxi Yang                    Professor of Xi'an Institute of Surveying and Mapping, Academician of the Chinese Academy of Sciences

Jianya Gong	Professor of Wuhan University, Academician of the Chinese Academy of Sciences
Huadong Guo	Professor of Chinese Academy of Sciences Aerospace Information Innovation Institute, Academician of the Chinese Academy of Sciences
Manchao He	Professor of China University of Mining and Technology (Beijing), Academician of the Chinese Academy of Sciences
Heping Sun	Professor of the Institute of Precision Measurement Science and Technology Innovation, Academician of the Chinese Academy of Sciences
Suping Peng	Professor of China University of Mining and Technology (Beijing), Academician of the Chinese Academy of Engineering
Jiancheng Li	Professor and president of Central South University, Academician of the Chinese Academy of Engineering
Renzhong Guo	Professor of Shenzhen University, Academician of the Chinese Academy of Engineering
Guofa Wang	Chief Scientist of China Coal Technology and Engineering Group, Academician of the Chinese Academy of Engineering
Jun Chen	Research Fellow of National Geographics Center of China, Academician of the Chinese Academy of Engineering

### Academic Committee

#### **Chair:**

Leting Huang	Professor of China University of Mining and Technology, President of the ISM
--------------	--

#### **Co-Chairs:**

Axel Preuße	Professor of RWTH Aachen University, Vice President of the ISM
Hendrik Grobler	Professor of University of Johannesburg, Vice President of the ISM
Zhengfu Bian	Professor and Vice President of China University of Mining and Technology, Candidate for the Chair of Commission I of the ISM
Fred Cawood	Professor of University of the Witwatersrand, Advisor of South African Government Mining Affairs, Candidate for the Chair of Commission II of the ISM
Joerg Benndorf	Professor of the Technical University of Freiberg, Candidate for the Chair of Commission III of the ISM
Ryszard Hejmanowski	Professor of AGH University, Academician of Polish Academy of Sciences, Chair of the Commission IV of the ISM
Simit Raval	Professor of The University of New South Wales, Candidate for the Chair of Commission V of the ISM

Youfeng Zou	Professor and Secretary of the Party Committee of Henan Polytechnic University, Chair of the Commission VI of the ISM
Ximin Cui	Professor and Vice-president of China University of Mining and Technology, Beijing
Kefei Zhang	Professor of China University of Mining and Technology, Fellow of the IAG
Yunjia Wang	Professor of China University of Mining and Technology
Zhenqi Hu	Professor of China University of Mining and Technology
Huayang Dai	Professor of China University of Mining and Technology, Beijing

### **Members:**

Yibing Yao	Professor of Wuhan University
Fei Li	Professor of Wuhan University
Shihong Du	Professor of Peking University
Xiaohua Tong	Professor and Vice President of Tongji University
Lixin Wu	Professor of Central South University, Distinguished Young Scholar, Academician of the International Eurasian Academy of Sciences
Zhiwei Li	Professor of Central South University
Peijun Du	Professor of Nanjing University
Wenzhong Shi	Professor of Hong Kong Polytechnic University, academician of the International Eurasian Academy of Sciences, academician of the British Academy of Social Sciences
Xinming Tang	Professor and Chief Engineer of the Satellite Remote Sensing Application Center of the Ministry of Natural Resources
Qingjun Zhang	Professor of the China Academy of Space Technology, academician of the International Eurasian Academy of Sciences, academician of the Russian Academy of Astronautics
Yu Wang	Professor, Aerospace Information Innovation Institute, Chinese Academy of Sciences
Bailian Lai	Secretary of the Party Committee and Director of the Aerial Surveying and Remote Sensing Bureau of the China Coal Geology Administration
Bingnan Hu	Research Fellow of China Coal Technology and Engineering Group, Member of the Presidium of the ISM
Tianbao Hu	President of the Safety and Emergency Research Institute of China Coal Geology Administration
Xiaodong Wang	Secretary of the Party Committee of Hebei Geological Surveying and Mapping Institute
Wenkai Liu	Professor and President of North China University of Water Resources and Electric Power
Shuanggen Jin	Professor and Vice President of Henan Polytechnic University
Zhong Xie	Professor of China University of Geosciences (Wuhan)

Yongsheng Zhang	Professor of PLA Information Engineering University of the PLA Strategic Support Force
Qing Zhu	Professor of Southwest Jiaotong University
Zhenhong Li	Professor and Dean of Chang'an University
Fanlin Yang	Professor and Vice President of Shandong University of Science and Technology
Jingxiang Gao	Professor of China University of Mining and Technology
Xuexiang Yu	Professor and Dean of Anhui University of Science and Technology
Yong Xue	Professor of China University of Mining and Technology, Academician of the International Eurasian Academy of Sciences

## Venue

### Xu Zhou City

Situated in the northwest of Jiangsu Province, Xuzhou is not only the largest city in northern Jiangsu but also one of the oldest cities in the province. It holds a significant position as the second largest railway hub in China, strategically located at the border area of Jiangsu, Shandong, Henan, and Anhui provinces. Here, the Beijing-Shanghai Railway and Lanzhou-Lianyungang Railway, two of China's main railways, converge.

With a history spanning thousands of years, Xuzhou boasts a rich cultural heritage, particularly as the second political center of the Han Dynasty (260-220). Presently, it serves as the core of the Huaihai economic development zone and stands as one of the nation's foremost agricultural product bases. When visiting Xuzhou, one cannot miss the awe-inspiring grand tombs, terracotta warriors, and stone sculptures from the Han Dynasty. Alongside other scenic attractions and beautiful natural wonders, the city emanates its own distinctive charm, leaving a lasting impression on every visitor. For more information about Xuzhou, please visit <https://www.travelchinaguide.com/cityguides/jiangsu/xuzhou/>.

### China University of Mining and Technology

Established in 1909, China University of Mining and Technology is a prestigious national university directly under the administration of China's Ministry of Education. It holds a distinguished position as a participant in the national "211 Project" and "985 Innovation Platform for Advantageous Disciplines," both government initiatives aimed at fostering and advancing top-tier higher education institutions in China. With a remarkable history spanning over a century, CUMT is renowned as a leading, multi-disciplinary, research-oriented university, recognized for its significant contributions to the coal energy industry and the socio-economic development of the province. ## Proposal from ISM President on the ISM online meeting on 19 May 2023

1. I hope that today's attendees can carry out the following tasks: 1) I hope you attend and make presentation on the congress, 2) invite related experts and scholars to attend and make presentation, 3) widely promote this conference and attract relevant doctoral and master's students to participate, 4) actively provide suggestions for the organization of this congress.

1. 希望今天参会人员开展如下工作：1) 希望本人能够参会并报告，2) 邀请熟悉专家学者参会并报告，3) 广泛宣传此次大会，并吸引相关博硕士研究生参会，4) 为本次会议的组织积极建言献策。

2. Four of the six ISM Commissions have vacancies in their chair (including Commission I, II, III and V), which are planned to be added during this year's presidium meeting. The preliminary list of candidates has been proposed. The purpose of this online meeting is to hope that these four candidates will perform excellently at this meeting and fully demonstrate their personal abilities and contributions.

2. 六个委员会其中四个委员会主席空缺（一、二、三、五），拟于今年主席团会议中增补，初步提出了人选名单，这次线上会议的目的是希望这四位候选人在这次会议上要表现优秀，充分展现出个人的能力水平和贡献。

3. The chair of the ISM Commissions (including the proposed chair candidate) should coordinate well with the session convener and secretary and make the session a success together.

3. 六个委员会主席（包括拟任主席）要与国内分论坛负责人对接好，共同把会议办好。
