

## Sponsorship

The organizing committee has designed sponsorship packages that will offer excellent value for money for interested parties. Sponsorship packages can be viewed on the Congress Website.

## Accommodation and Transportation

The main venue will be in Xuzhou, China. Presidium Meeting and technical investigation will be in Beijing and Shanghai respectively. Delegates can fly to Beijing, Shanghai or other international airports, and then take high-speed rail to Xuzhou. Xuzhou has a history of 6000 years and beautiful scenery. This city attracts 60 million tourists every year. China University of Mining and Technology is located in Xuzhou City. For more information about Xuzhou and CUMT, please visit <https://www.travelchinaguide.com/cityguides/jiangsu/xuzhou/> <http://www.cumt.edu.cn/>

## Registration

The registration is open now at <http://www.ism2023.org.cn/>.

## Exhibition

A high profile trade exhibition open to institutions and supporting services will be held simultaneously with the congress.

## Further Information

All necessary information will be published on the Congress and ISM official Website: <http://www.ism2023.org.cn/> <http://www.ism-minesurveying.com/> Please register to our Website to receive email notifications and submit abstract and full paper.

# XVIII International ISM Congress

## Smart Surveying and Mapping & Green Mine

Beijing · Xuzhou · Shanghai, China  
26th Oct.- 29th Oct. 2023

The XVIII International Congress for Mine Surveying will be held in China in 2023. Experts, scholars and technicians from all over the world in surveying and mapping, mining, remote sensing and environment will introduce the latest research results, show successful cases of technology, and propose future application needs. This congress is not only a platform for participants to exchange scientific and technological achievements, but also a platform for participants to form new ideas through technological collision, and also a platform for participants to contact old friends, meet new partners and reach cooperation intentions. Experts, scholars and technicians at home and abroad are welcome to attend the meeting.

The organizers will be delighted if all of this is achieved as a result of your participation in the largest and highest level academic event in the field of mine surveying.

**Huang Leting**, ISM President

**Axel Preuße**, ISM Vice President

**Hendrik Grobler**, ISM Vice President
